

Challenger Planet

Jim Cooper Meeting Room
225 Seventh Street

Where science
is fun
everyday!

Challenger Planet, offers afterschool programs which begin classes in September at Jim cooper meeting Hall. Engineering and science challenges are at the heart of their program. Challenger Planet's focus is to develop a profound understanding of STEM (Science, Technology, Engineering, Math) concepts through hands on projects and challenges. The curriculum revolves around STEM but also emphasizes other skills needed to be successful in life, such as independent thinking, teamwork, time management and creative problem solving. For more information on their afterschool program or you can visit their website at

www.challengerplanet.com

Classes will be held from September through December!
